

ColunaNomeada::removerTarefa

ColunaArquivo::removerTarefa

ListaDupla::removerPorIndice

```
graph LR; A[ColunaNomeada::removerTarefa] --> C[ListaDupla::removerPorIndice]; B[ColunaArquivo::removerTarefa] --> C;
```

The diagram illustrates a relationship between three methods. On the left, two white rectangular boxes with black borders contain the text 'ColunaNomeada::removerTarefa' (top) and 'ColunaArquivo::removerTarefa' (bottom). On the right, a gray rectangular box with a black border and a slight 3D effect contains the text 'ListaDupla::removerPorIndice'. Two blue arrows originate from the right side of the left boxes and point towards the left side of the gray box, indicating that both 'ColunaNomeada::removerTarefa' and 'ColunaArquivo::removerTarefa' delegate or call the 'ListaDupla::removerPorIndice' method.
